3515 Century Ave N.
White Bear Lake, MN 55110

SQUARE FEET: 240 AVAILABLE: Now

DESCRIPTION

Did you start the school year thinking a 15-25 minute commute was no big deal only to find the traffic and wasted time tedious? Well, Century Commons is your answer. It's affordable housing while you attend college, you have found your new home! Century Commons was designed with students in mind. We are similar to living in a dorm, but instead of having to go to the cafeteria to eat and down the hall to shower, you have an apartment with a kitchen and two bathing/showing areas that you share with other students.

You will have your own private bedroom (students love this) with a lock on your door and your own lease (parents love this) so it doesn't matter how long the other students in your apartment are planning on staying. You get to choose your own move in date and your own lease end date. Since we are located 1 block from Century College, our lease end dates are based on their school calendar, but you can move in any time and don't have to move out in the summer. You may attend any accredited school part or full time or remotely and still qualify to live at Century Commons. You may also take a semester or summer off and still live with us. The rent price listed is based on a one year lease. (Other lease length options are available but may carry an additional monthly fee.)

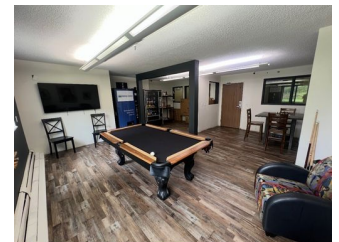

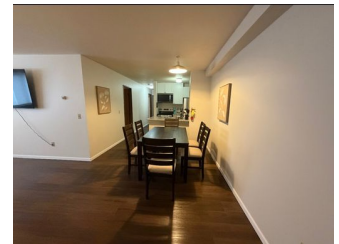

Our deluxe bedrooms are twice the size of our standard bedrooms at 240 square feet. They come with two desks and 4 closet spaces. We do allow two person occupancy in a deluxe bedroom for a \$200.00 upcharge in rent.

Each apartment is partially furnished with a couch and chair in the living room, a dining table and chairs in the dining room as well as a stove/oven, refrigerator and microwave. Most of our apartments are recently remodeled with new kitchens with dish washer, and Luxury Vinyl Tiles. Each bedroom has a built-in desk and closet. You may either bring your own bed or rent a twin or full bed for the duration of your stay. The price of rent even includes ALL your utilities (except cable TV and telephone) and building wide high speed fiber optic wifi, making it easy for you to budget.
